

SUGGESTED NOMINATION:

To the Committee for the 2016 Nobel Prize in Chemistry:

Prof. Sara Snogged Lise (Chairman),

Prof. Peter Brzezinski, Prof. Claus Gustaf, Prof. Olaf Trstram,

Prof. Johan Atavist, and Prof. Gunar Von Heine (Secretary)

I respectfully recommend for the 2016 Nobel Prize in Chemistry Professor RUGGERO MARIA SANTILLI for the discovery of the new chemical species of magnecules as outlined and documented in detail in the web site <http://nobelprizeweb.com/index.php/nominations>

The Santilli's theory lead even to new Mathematics as in Hyperstructure Theory and Hyper-mathematics.

Thank you for your consideration

PROFESSOR
